

Hi!

This looks like something you'd be interested in - A special screening event of Regen Studios and director Damon Gameau's ('[2040](#)', '[That Sugar Film](#)') new impact film in Sawtell on Saturday the 9th of April at Majestic Cinemas.

[Regenerating Australia](#) is a hypothetical news report from 2030 based on interviews with a diverse group of Australians who were asked about their hopes and dreams for the future.

*What could Australia look like by the year 2030 if we simply listened to the needs of its people?*

*Regenerating Australia* is based on a four-month interview process with Australians from all walks of life who shared their hopes and dreams for the country's future. It is a new story for our nation: a story of empowerment. A story of solutions. A story of regeneration.

Regenerating Australia is now on its national cinema tour with FREE ENTRY for U18's, special guest speakers, and a \$2 million fund from WWF-Australia to help bring community solutions to life.

Bring your family, friends, and ideas!
