

# Skillsroad is coming to School!

*"Students will totally benefit from the experience, who doesn't love learning about themselves and their future!"*

Skillsroad Career Coach

Skillsroad & the Industry Training Hub have partnered to deliver a work readiness event for students in the region.

## PROGRAMME HIGHLIGHTS:

Sessions are one period in duration; and held at School.

### Careers Quiz

Careers Quiz is like a personality test but for careers. This structured online activity helps students shine a light on what their skills are, strengths & weakness, and provides a list of careers to consider based on their individual results.

- For students that have an idea of what they want to do this delivers a boost of confidence that they are on the right path.
- For students who don't have a clear idea just yet it's a great way to inspire thinking more broadly about possibilities.

*"It is such a fun yet targeted program, everyone will take something away, whether it be a career plan, a course to research or how to nail their first interview... But my personal favourite is watching the students become more confident when talking about their future career".*

Skillsroad Career Coach

### Job Fit

Job Fit assesses a range of skills, with a focus on these areas:

- Communication, Prioritisation and organisation, Personal brand, Teamwork.
- Performance and feedback, Self-management; and Conflict management.

### Job Fit is customised by the Student

Students input their choice of industry or interest into Job Fit and the program asks job specific questions.

### Results go to every Student

Students receive results from both their Careers Quiz and Job Fit. These are a brilliant resource to share with friends, family and careers advisors to strengthen career conversations and decision making.

**These sessions are being delivered during March in High Schools across the region and are FREE for students. Contact your Careers Advisor for details.**
