

Clayfield College

Student Protection Officers

Clayfield College has adopted the [PMSA Child Protection Risk Management Strategy – 2019](#). This strategy outlines the policies and procedures that will ensure the safety and wellbeing of students attending Clayfield College by responding to all allegations of child abuse and neglect or inappropriate behaviour by a staff member or volunteer towards a student, and referring students and families for support when appropriate.

When staff, students, parents, volunteers or members of the College community have concerns for a student at the College, they should discuss their concerns with the Principal or one of the Student Protection Officers listed below.
