FLEXIBLE LEARNING PATHWAY

Grace Lutheran College prides itself on providing students with their personalised pathways to ensure students achieve to their individual potential.

The College's Flexible Learning Pathway includes various approaches to support high performing students pursue their gifts and talents while balancing their academic studies.

Personalised Timetables

Students can apply for a personalised timetable where they can evidence excellence in a particular domain.

The level of excellence demonstrated must be equivalent to:

- Competing at State, National or International levels or,
- The training/practice contributes toward a formal qualification which contributes to the students QCE.

A personalized timetable may include a reduction in subject load/s, to use this time to balance the aforementioned commitments.

A student may access University courses whilst still at school under the guidance of the Pathways Coordinator.

Students who are accessing university start programs, may use this to replace an elective on their timetable.

Early University Start

Accelerated Learning

Academic Enrichment Case Managers will make student referrals to access accelerated learning options (in year groups above their age) when it is in the student's best interests holistically.

HOW TO APPLY

Once enrolled at the College, submit a written application (along with the required verifiable evidence) to the Pathways Coordinator (careers@glc.qld.edu.au) for consideration.
