

School Days

AUTUMN 20

From the Principal

Greetings to all within our community.

Since our last edition of School Days (Spring, 2019) I acknowledge that so much has occurred both at our school and within the world we live. At the end of the 2019 school year, we took the time to recognise and celebrate the graduation of our first cohort of Year 12 students. This moment was a wonderful time of recognition for those students and families who have been faithfully committed to our college over the years. We are very proud of their achievements and wish them all the best as they now begin the next stage of their life.

During the latter part of last year we were fortunate to receive a non-government school building grant of \$2 million from the Victorian State Government, contributing to the build of the Senior School facility. This building project will complete the second and final stage of the Senior Centre precinct and include additional classrooms, a science laboratory, sport science area and sports gymnasium. The project will start in June, with completion scheduled for April 2021.

The commencement of 2020 saw enrolments at the college exceed 600

students, with 85 staff now employed in both teaching and non-teaching roles. The growth of our college has been very pleasing over the years and, as we develop, I look forward to continuing to provide learning opportunities to students from Horsham and the wider communities.

On 10 March of this year, Dr Anne Webster, Federal Member for Mallee, officially opened the new Junior School building and classroom refurbishment. With additional classrooms, a collaborative learning area, learning support spaces and a junior innovation centre for students in Foundation to Year 2, we recognise that we are truly blessed to have such wonderful facilities to help facilitate the rich and dynamic learning that occurs in our Junior School.

At the time of writing this report, I sadly acknowledge that Victoria, and the rest of the world, are still combating the issues associated with the spread of COVID-19. Despite living in these changing and challenging times, as the principal of the college I have been extremely proud of how our community has responded to the pandemic and

the restrictions placed on our lives. The introduction of remote learning commenced at the start of Term 2 and with that came opportunities and challenges. Despite the need to change how we do things, the college has continued to foster connection and encourage students to be collaborative, curious, critical and creative thinkers. We have been blessed to have such passionate and dedicated staff who have worked tirelessly to support students and I give thanks for the care they have shown towards families and one another. I also give praise to families who have positively navigated this challenging time, ensuring that they too actively engaged with their child while using the remote learning platform.

The world as we know it may have changed but it has been reassuring that during these times we are reminded each and every day about who and whose we are. Blessings to you all.

Mr Daniel Weller
College Principal

A New Season

A big welcome to all of our new staff!

Births and Weddings!

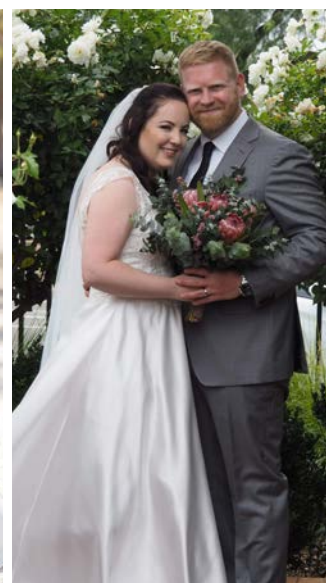

We congratulate Charlene and Luke on the arrival of their daughter, Lucy Marie Rethus, born on 28 November 2019.

Congratulations to Chris and Erin on the arrival of their son Larson Drew Versteegen, born on 20 May 2020.

The wedding of Mrs Jennifer Liston (nee Klinge) to Matt Liston on 11 January 2020.

The wedding of Mrs Jemma Fox (nee Moody) to Ian Fox on 25 March 2020.

Leading through Service

At Holy Trinity, students are provided with pathways for students to grow and develop their leadership skills, and embody the college's values of achievement, creativity, respect, responsibility, diversity and acceptance. But students don't need to have a badge on their chest to be a leader. All students are encouraged to lead by example, where service to others, teamwork, taking initiative and developing responsibility is emphasised.

Congratulations to all of our student leaders! We wish them all the best as they fulfil their leadership positions this year.

College Captains

Elisha Barry and Dyson Parish

Vice Captains: Jemma Nagorcka and Jason Reichelt

Middle School Captains

Zoa Mock and Wil Tippet

Vice Captains: Leah Eilola and Henry Kinsman

Junior School Captains

Gemma Freijah and Cadel Hawken

Vice Captains: Zara Adams and Harrison Daniell

Middle School Ambassadors

Aiden North, Jacob Rudolph, Jaya Meadows, Annabelle Heal

Secondary House Captains

Lowan: Tahlia Dufty and Jason Reichelt

Mallee: Jemma Nagorcka and Dyson Parish

Wimmera: Elisha Barry and Cooper Walter

Junior School House Captains

Lowan: Asha Fiedler, Indira Hogan, Levi Munyard, Jed Pohlner

Mallee: Ava Camilleri, Milla Carter, August Koch, Lenix Nelson

Wimmera: Eva Drendel, Jack Hicks, Ruby McAuliffe, Jack McAuliffe

HTLC Rowing

There has been a strong start to HTLC's rowing program in our inaugural season, with six students from the college all securing podium finishes in multiple events held during Term 1.

In February, at the Head of the Schoolboys' Regatta at Lake Wendouree, Rory Hallinan-Johns comfortably won the preliminary final by six boat lengths before winning the gold medal in the Year 8 Boys final, finishing two minutes ahead of his nearest rival.

Maddie Toet and Freya Colbert also competed and comfortably won their heat in the Firkbank Regatta on the Barwon River in Geelong, and finished third in a closely contested final.

The following weekend, the first HTLC Coxed Quad Scull crew competed at the Junior Girls State Championship Regatta on the Barwon River at Geelong. Coxed by Rory Hallinan-Johns, the crew of Dana Houghton, Freya Colbert, Chanel Scollary and Maddie

Toet finished third in a very fast heat, earning progression to the C Final. The crew made the most of their opportunity in the final, finishing 4 seconds clear of their opposition to win the Year 10 Girls Division 2 'C' final.

Continuing their good form, Maddie Toet and Alexandra Salter took on the Rowing Victoria State Championship Regatta in the 2000 metre Open Schoolgirls Double Scull. The girls performed well in the heat to earn their place in the final. After another great row against a number of strong crews, the girls earned a silver medal at the State Championships.

As a relatively new team to the sport of rowing, and competing against schools with a strong rowing tradition, the HTLC Rowing team has had a fantastic start to 2020. We are excited to see the program grow and further improve into the future.

HTLC@HOME

As restrictions in response to managing the Covid-19 pandemic are eased, all students have now returned back to school after over half a term of remote learning. Although excited to be back at school, staff and students have made the most of the period of remote learning, embracing the change to learning routines in this unprecedented situation.

With the majority of students learning from home, teachers innovated their teaching practices to continue to provide quality care and learning opportunities for students. Remote learning at Holy Trinity was delivered both online and off-line so that students could continue to engage in hands-on learning. Using video conferencing technology, classes continued to meet each day to keep connected and support their day of learning.

Teachers are already reimagining how they can innovate their teaching practice to establish a new normal for students. Over the coming months, teachers will look to leverage the benefits gained from the remote learning model to ensure students continue to be collaborative, creative, curious and critical thinkers in this changing and challenging world we live in.

LAUNCH OF SPECIALIST SPORT PROGRAM

In partnership with Federation University and WestVic Academy of Sport, this year we were excited to launch our Specialist Sport Program. Twelve students were selected to be a part of the high performance program, which provides services to athletes to complement their current coaching, training and competition environments. The following students were selected for the program and have been undertaking individualised programs following physical assessments by the Academy. Although the program delivery has been modified this year, the students have been supported by the academy to continue to train from home and are looking forward to resuming training hopefully later this year.
