The College may use online or 'cloud' service providers to store personal information and to provide services to store personal information and to provide services to the College that involve the use of personal information. See further the section below 'Sending and storing information overseas.'

3.10. Sending and storing information overseas

The College may disclose personal information about an individual to overseas recipients in certain circumstances, for instance, to facilitate a school exchange, or tour.

In some cases, the Australian Government may designate certain countries or international frameworks as having substantially similar privacy protections to those in Australia. If a recipient is located in a country that has been officially whitelisted by the Minister, King's may rely on that designation to satisfy our obligations under the Privacy Act.

As of the date of this policy, no countries have been formally whitelisted. Therefore, King's continues to assess and ensures that any overseas recipient handles personal information in accordance with the APPs.

However, the College will not send personal information about an individual outside Australia without:

- a. Obtaining consent of the individual (in some cases this consent will be implied)
- b. Otherwise complying with the Australian Privacy Principles or other applicable privacy legislation.

The College may use other online or 'cloud' service providers to store personal information and to provide online services to the College that involve the use of personal information, such as services relating to email, instant messaging and education and assessment applications. Some limited personal information may also be provided to these service providers to enable them to authenticate users that access their services and provide technical support. This personal information may be stored in the 'cloud' which means that it may reside on a cloud service provider's servers which may be situated outside Australia.

An example of such a cloud service provider is Microsoft 365. Microsoft Office 365 provides applications such as Outlook, and stores and processes limited personal information for that purpose. The College personnel and the service providers may have the ability to access, monitor, use or disclose emails, communications, for example Teams or instant messaging, documents and associated administrative data for the purposes of administering Microsoft 365 and ensuring its proper use.

This document is not controlled in printed form.

3.11. Countries your data may be transferred to

The College takes reasonable steps to ensure that personal data is processed and stored within Australia wherever possible. However, in the course of delivering our services, it is sometimes necessary to engage third-party providers whose data storage infrastructure may be located overseas. For example, 3P Learning Ltd (providers of ABC Reading Eggs, Mathletics, and ABC Mathseeds) uses Amazon Web Services (AWS), which hosts data in Australia, the United States, and Europe.

Additionally, our teaching staff may use various educational applications to support curriculum delivery. Some of these tools may store or process data in jurisdictions outside of Australia, depending on their operational setup. While the College aims to partner with reputable providers, we cannot always control the exact location of data storage by these third parties.

3.12. Marketing and Fundraising

The College treats seeking donations for the future growth and development of the school as an important part of ensuring that the College continues to provide a quality learning environment in which both students and staff thrive. Personal information held by the College may be used for the purposes of encouraging future enrolments, or to send information about upcoming Fundraising events such as Carnival Days. From time to time we may send information about events such as Tours or Open Days, or general information about enrolling into the College to people who have previously expressed interest.

An option to opt-out of receiving this material will be routinely available within the specific marketing material.

The College uses tracking pixels and similar tools to gather data on user interactions with our website and marketing content. These tools help us understand user behaviour, measure the effectiveness of our campaigns, and deliver more relevant ads. By analysing this data, we can refine our strategies to better serve user interests and improve overall marketing performance.

In some instances, the College and associated Parent and Friends Association (P&F) uses third-party providers such as Humanitix, to provide ticketing services.

If you do not want to receive fundraising communications from us, please contact our Privacy Officer at privacy@kingscollege.qld.edu.au.

3.13. Management and Security of personal information

The College has in place steps to protect the personal information the school holds from misuse, interference and loss, unauthorised access, modification or disclosure by use of various methods including locked storage of paper records and password access rights to computerised records.

These steps include:

- a. Restricting access to information on the College databases on a need-to-know basis with different levels of security being allocated to staff based on their roles and responsibilities and security profile.
- b. Ensuring all staff are aware that they are not to reveal or share personal passwords.
- c. Ensuring where personal and health information is stored in hard copy files that these files are stored in lockable filing cabinets in lockable rooms. Access to these records is restricted to staff on a need-to-know basis.
- d. Implementing physical security measures around the College buildings and grounds to prevent break-ins.
- e. Implementing ICT security systems, policies and procedures, designed to protect personal information storage on our computer networks.
- f. Implementing human resources policies and procedures, such as email and internet usage, confidentiality and document security policies, designed to ensure that staff follow correct protocols when handling personal information.
- g. Undertaking due diligence with respect to third party service providers who may have access to personal information, including cloud service providers, to ensure as far as practicable that they are compliant with the Australian Privacy Principles or a similar privacy regime.

3.14. Data Breaches

King's will deem an 'eligible data breach' has occurred if:

- a. there has been unauthorised access to, or unauthorised disclosure of personal information, or a loss of personal information, held by the school
- b. a reasonable person would conclude there is a likelihood of serious harm to any affected individuals as a result

Serious harm may include serious physical, psychological, emotional, economic and financial harm, as well as serious harm to reputation.

3.14.1. Eligible data breach assessment/investigation

If King's suspects that an eligible data breach has occurred, it will take reasonable steps to assess/investigate within 30 days.

If such an assessment/investigation indicates there are reasonable grounds to believe an eligible data breach has occurred, then King's will be required to lodge a statement to the Privacy Commissioner (Commissioner). Where practical to do so, the school will also notify the affected individuals. If it is not practicable to notify the affected individuals, King's will publish a copy of the statement on its website or publicise it in another manner.

3.14.2. Exception to notification obligation

An exception to the requirement to notify will exist if there is a data breach and immediate remedial action is taken, and as a result of that action:

- a. there is no unauthorised access to, or unauthorised disclosure of, the information
- b. there is no serious harm to affected individuals, and as a result of the remedial action, a reasonable person would conclude the breach is not likely to result in serious harm.

3.15. Access and correction of personal information

Under the [Privacy Act 1988 \(Cth\)](#) an individual has the right to seek access to, and/or correction of, any personal information which the College holds about them and to advise the College of any perceived inaccuracies. Students will generally be able to access and update their personal information through their Parents, but older students may seek access and correction themselves.

There are some exceptions to these rights set out in the applicable legislation.

To make a request to access, update or correct any personal information the College holds about you or your child, please contact the Privacy Officer by email at privacy@kingscollege.qld.edu.au, post or telephone. Contact details are provided in the [Enquiries and complaints](#) section.

The College may require you to verify your identity and specify what information you require. The College may charge a reasonable fee for giving access to your personal information (but will not charge for the making of the request or to correct your personal information). If the information sought is extensive, the College will advise the likely cost in advance. If we cannot provide you with access to that information, we will provide you with written notice explaining the reasons for refusal.

The College will take reasonable steps to ensure the any personal information is accurate, up to date, complete, relevant and not misleading. Routine personal

information such as contact details and relevant student medical details are available for parents to review and update in the Parent Lounge of the web portal.

3.16. Consent and rights of access to the personal information of students

The College respects every Parent's right to make decisions concerning their child's education. Generally, the College will refer any requests for consent and notices in relation to the personal information of a student to the student's Parents. The College will treat consent given by Parents as consent given on behalf of the student, and notice to Parents will act as notice given to the student.

Parents may seek access to personal information held by the College about them or their child by contacting the Privacy Officer at privacy@kingscollege.qld.edu.au, by telephone or in writing (details in the section above '[Access and correction of personal information](#)').

However, there may be occasions when access is denied. Such occasions may include (but are not limited to) where the College believes the student has capacity to consent and the College is not permitted to disclose the information to the Parent without the student's consent, where release of the information would have an unreasonable impact on the privacy of others, or where the release may result in a breach of the College's duty of care to the student.

The College may, at its discretion, on the request of a student, grant that student access to information held by the College about them, or allow a student to give or withhold consent to the use of their personal information, independently of their Parents. This would normally be done only when the maturity of the student and/or the student's personal circumstances warrant it.

3.17. Enquiries and complaints

If you would like further information about the way the College manages the personal information it holds, or wish to complain that you believe that the College has breached the Australian Privacy Principles please contact the Privacy Officer by email, post or telephone at:
