

Unite against COVID-19

Dear sport and recreation colleagues,

This morning the Premier announced that Queensland's lockdown which commenced at 4pm on Saturday 31 July 2021, will cease as scheduled at 4pm today, Sunday 8 August 2021.

The 11 LGAs impacted by the recent lockdown conditions include:

- Brisbane City Council
- Logan City Council
- Moreton Bay Regional Council
- Ipswich City Council
- Redland City Council
- Sunshine Coast Regional Council
- Gold Coast City Council
- Noosa Shire Council
- Somerset Regional Council
- Lockyer Valley Regional Council
- Scenic Rim Regional Council.

While the lockdown will end for the abovementioned LGAs, a range of [temporary restrictions](#) have been advised and will be implemented from **4pm Sunday 8 August 2021, through until 4pm Sunday 22 August 2021**, to ensure the continued safety of our communities.

At this time, it has been advised that:

- community sport (including 'state leagues') cannot resume and will not be permitted for this next two-week period.
- school sport and activities can proceed with only students from the same school.

Mask wearing is required at all times (including workplaces where physical distancing is possible) is required, except when:

- you are alone or with members of your household
- you are eating or drinking
- exercising with your household or one other person
- it is unsafe to do so.

Clarity on the operation of sport, active recreation and fitness businesses, indoor and outdoor events, will be provided once the Public Health Direction has been updated.

Please refer to the updated [Roadmap](#) which has now been published online, outlining the restrictions in place for Cairns, the 11 South East Queensland LGAs and the rest of Queensland.

As you are aware, it is our intention to provide advice on the impacts of these restrictions to the active industry, so we will follow this email with further detail on the ongoing conditions once the [Queensland Health](#) website has been updated.

In the interim, please also monitor the [Public Health Directions](#) as the source of our advice.
