HOW DOES THE COLLEGE TREAT SENSITIVE INFORMATION?

In referring to 'sensitive information', the College means: information relating to a person's racial or ethnic origin, political opinions, religion, trade union or other professional or trade association membership, philosophical beliefs, sexual orientation or practices or criminal record, that is also personal information; health information and biometric information about an individual.

Sensitive information will be used and disclosed only for the purpose for which it was provided or a directly related secondary purpose, unless the individual agrees otherwise, or the use or disclosure of the sensitive information is allowed by law.

MANAGEMENT AND SECURITY OF PERSONAL INFORMATION

College staff are required to respect the confidentiality of students' and parents' personal information and the privacy of individuals.

The College has in place steps to protect the personal information the College holds from misuse, interference and loss, unauthorised access, modification or disclosure by use of various methods including locked storage of paper records and password access rights to computerised records.

DATA BREACHES

It will be deemed that an 'eligible data breach' has occurred if:

- there has been unauthorised access to, or unauthorised disclosure of, personal information about one or more individuals (the affected individuals)
- a reasonable person would conclude there is a likelihood of serious harm to any affected individuals as a result
- the information is lost in circumstances where:
 - unauthorised access to, or unauthorised disclosure of, the information is likely to occur
 - assuming unauthorised access to, or unauthorised disclosure of, the information was to occur, a reasonable person would conclude that it would be likely to result in serious harm to the affected individuals.

Serious harm may include serious physical, psychological, emotional, economic and financial harm, as well as serious harm to reputation.

If the College suspects that an eligible data breach has occurred, it will carry out a reasonable and expedient assessment/investigation within 30 days.

If such an assessment/investigation indicates there are reasonable grounds to believe an eligible data breach has occurred, then the College will be required to lodge a statement to the Privacy Commissioner (Commissioner). Where practical to do so, the College will also notify the affected individuals. If it is not practicable to notify the affected individuals, the College will publish a copy of the statement on its website, or publicise it in another manner.

An exception to the requirement to notify will exist if there is a data breach and immediate remedial action is taken, and as a result of that action:

- there is no unauthorised access to, or unauthorised disclosure of, the information
- there is no serious harm to affected individuals, and as a result of the remedial action, a reasonable person would conclude the breach is not likely to result in serious harm.

ACCESS AND CORRECTION OF PERSONAL INFORMATION

The College endeavours to ensure that the personal information it holds is accurate, complete and up-to-date.

Under the Commonwealth Privacy Act and the Health Records Act, an individual has the right to obtain access to any personal information that the College holds about them and to advise the College of any perceived inaccuracy. Students will generally be able to access and update their personal information through their parents, but older students may seek access and correction themselves.

There are some exceptions to these rights set out in the applicable legislation.

If a parent or guardian makes a request to access or update any personal information the College holds, please contact the College Registrar in writing. The College may require verification of

identity and specification of information requested. If the information sought is extensive, the College may charge a fee to cover the cost of verifying the application and locating, retrieving, reviewing and copying any material requested. In those circumstances the College will advise the likely cost in advance. If we cannot provide access to information, written notice explaining the reasons for refusal will be provided.

CONSENT AND RIGHTS OF ACCESS TO THE PERSONAL INFORMATION OF STUDENTS

The College respects every parent's right to make decisions concerning their child's education.

Generally, the College will refer any requests for consent and notices in relation to the personal information of a student to the student's parents. The College will treat consent given by parents as consent given on behalf of the student and notice to parents will act as notice given to the student.

As mentioned above, parents may seek access to personal information held by the College about them or their child by contacting the Principal. However, there may be occasions when access is denied. Such occasions would include where release of the information would have an unreasonable impact on the privacy of others, or where the release may result in a breach of the College's duty of care to the student.

The College may, at its discretion, on the request of a student grant that student access to information held by the College about them or allow a student to give or withhold consent to the use of their personal information, independently of their parents. This would normally be done only when the maturity of the student and/or the student's personal circumstances so warranted.

ENQUIRIES AND COMPLAINTS

If further information regarding the College's management of personal information or it is believed the College has breached the Australian Privacy Principles, please contact the Head of Strategy and Compliance. The College will investigate any complaint and will notify the complainant as soon as is practicable of the decision.
