# STUDY ENGINEERING WITH SOME OF THE BRIGHTEST MINDS IN WA

ECU has been ranked in the top 175 universities in the world for Engineering by the Times Higher Education World University Rankings for 2022.

ECU has also been ranked the top university in Western Australia for undergraduate Engineering education, across all six indicators (QILT SES results 2020).

Here, you'll study in some of the best-equipped, industry-grade engineering labs in Australia, with the opportunity to work on real-world projects and develop strong contacts through industry engagements, events and internships.

You'll also acquire knowledge and skills as a professional engineer to help make the world more sustainable and serve society.

Our engineering courses have a common multidisciplinary first year, and more than 20 courses have been professionally accredited by Engineers Australia and recognised under the global Washington Accord.

With an ECU engineering degree, you'll graduate as a world-ready engineer, able to work globally and capable of meeting the challenges of the future.

## SCHOLARSHIPS FOR 2023

ECU is offering scholarships valued at \$20,000 to high performing Year 12 students who wish to study Engineering in 2023.

## WHO IS ELIGIBLE?

The scholarship is open to Year 12 students who achieved top marks at the end of Year 11, and/or in Year 12 (Semester 1). You must be studying at least two of the following subjects:

- Maths Methods (*mandatory*)
- Maths Specialist
- Chemistry
- Engineering Studies
- Physics

## HOW TO APPLY

All secondary schools in WA are invited to nominate high performing students who are interested in studying Engineering. Students can also self-nominate for this scholarship.

The school or the student (for self-nominations) should complete the nomination form via [ecu.edu.au/scholarships/engineering-excellence](https://ecu.edu.au/scholarships/engineering-excellence), and include the student's Year 11 (Semester 2) results. If the nomination is made after the end of Term 2 in 2022, the results of Year 12 (Semester 1) should also be provided.

## WHEN WILL SCHOLARSHIPS BE PAID?

The scholarship will be paid over four years at \$5,000 per year, or pro-rata for part-time study\*, once the student's enrolments are confirmed after the census date of each semester. For the Bachelor of Engineering (Honours) courses, the scholarship will be for a duration of 4 years, with the exceptions of:

- Bachelor of Maritime Engineering (Specialisation) (Honours) – scholarship is applicable to the first two years of the program that is on offer at ECU.
- Engineering Double Degrees – scholarship is applicable to the engineering component of the double degree.
- Bachelor of Engineering Science – scholarship is applicable only for 3 years in line with the duration of the course.

## "ONE OF MY MOST SIGNIFICANT ACHIEVEMENTS HAS BEEN RECEIVING THE ENGINEERING EXCELLENCE SCHOLARSHIP."

I chose to study engineering because of my passion for applying physics, as well as for the rewarding feeling of solving real world problems. I was influenced a lot by my peers, teachers and parents in years 9 and 10 to begin on my mathematics and physics pathway. They helped convince me that engineering would be a rewarding career.

Studying at ECU has been both hard work and rewarding. I have a lot in common with my fellow students. We share the same interests and goals, so lectures and study groups are friendly and easy-going.

### CHRISTIE KEARNEY

ECU Computer Systems Engineering student and Engineering Excellence Scholarship recipient

## SELECTION PROCESS

Nominations will be assessed by a Review Committee and successful nominees will be notified in writing at the earliest opportunity.

## SCHOLARSHIP ELIGIBILITY CRITERIA

Students must:

- Perform satisfactorily in all of their WACE subjects.
- Be on target to achieve an ATAR of 94 or above.
- Satisfy admission requirements for the intended Bachelor of Engineering (Honours) or Bachelor of Engineering Science course at ECU.
- Be nominated by their school principal or self-nominate by the deadline.
- Be an Australian citizen, permanent resident, holder of a Refugee and Humanitarian visa, or New Zealand citizen.

## ONGOING CRITERIA TO BE MET AFTER ENROLMENT

Students must:

- Enrol in units according to the prescribed engineering course structure.
- Maintain 'Good Standing' progression status in each semester of study.
- Not receive any penalties or warnings for academic misconduct or general misconduct during their study.
- Have no break in academic studies (except on approved medical grounds).
- Enrol into a minimum of three units in each semester (the standard full-time study load is four units per semester).

\*Pro-rata payment is based on the number of enrolled units at census date (1 April for Semester 1, or 1 September for Semester 2).

## HOW TO NOMINATE

Visit the ECU Engineering Excellence Scholarships website at [ecu.edu.au/scholarships/engineering-excellence](https://ecu.edu.au/scholarships/engineering-excellence) to download a nomination form.

Schools can nominate top performing students or students can self-nominate.

Nominations are open until 31 October 2022.
