

A ST PETERS GRADUATE

This Graduate Tree was developed by the Prep to Year 12 teaching staff at St Peters Lutheran College Springfield as a representation of our hopes and intentions for our graduates.

Each tree is unique, growing, dynamic and complex, so too are our young people. We want to see them flourish and be a means of blessing to others and the world, a world that is rapidly changing and increasingly uncertain.

We hope that our graduates would be young people of faith, rooted in the word of God, guided by a Christian worldview and evidencing the fruit of the Holy Spirit in their lives. That said, we respect that students have their own faith and spiritual journeys and their own worldviews that provide the basis by which they live and move and have their being.

They are like trees planted by water, sending out their roots beside the stream. They do not fear the heat or even drought. Their leaves stay green and its fruit are dependable, *no matter what it faces.*

Jeremiah 17:8
