Your reflection

**Section 1**

Reflect on your performance. What went well? What will you do to improve next time?

I didn't simplify one thing and I hope I didn't lose a mark for that but otherwise I did well. The last question got me on the first and second section especially with the last probability question.

## 9 Course 1B

### MATHEMATICS COURSE 1B

The Year 9 Mathematics course is designed to diagnose and extend student development and understanding in mathematical concepts. We will cover topics specified in the Australian Curriculum, namely: Number and Algebra, Measurement and Geometry, Statistics and Probability.

All mathematics classes are streamed in Year 9 so that each boy has an opportunity to work at a standard to suit his individual ability and performance. The progress of all boys will be continually monitored and re-streaming will occur where performance warrants it. In Year 9 Mathematics there are four courses, Maths 1a, Maths 1b, Maths 2 and Maths 3. Maths 1a is designed for the most capable students including those who require extension work while Maths 1b focuses on the same curriculum without the extension material. Maths 2 is designed to focus content similar to Maths 1a and Maths 1b at a lower level and Maths 3 is provided to cater for students who need more intensive assistance in a supportive and stimulating classroom.
