Preamble

Edmund Rice Education Australia is a network of Schools, entities and offices, offering a Catholic education in the tradition of Blessed Edmund Rice. Established by the Christian Brothers in 2007, *Edmund Rice Education Australia* governs the Schools owned by the Brothers at that time, as well as Schools established since then. As a Public Juridic Person (PJP), *Edmund Rice Education Australia* has its own canonical and civil identity but remains closely connected to the Christian Brothers and their ongoing ministry (The Design 2014).

This Code of Conduct (Code) details, clarifies and affirms the standards of behaviour expected by *Edmund Rice Education Australia* for members of the *Edmund Rice Education Australia* community.

Central to the mission of a Catholic School in the Edmund Rice tradition is an unequivocal commitment to fostering the dignity, self-esteem and integrity of each and every person present within *Edmund Rice Education Australia* and each of its *School* communities. The provision of a safe, supportive and enriching environment is an essential element in achieving this objective.

Within *Edmund Rice Education Australia School* communities, it is expected that *Students* will develop skills and attributes for building positive relationships and it is these same skills that *Edmund Rice Education Australia* expects will be modelled by *Workers*.

This Code confirms general commitments, including a commitment to, and respect for the teachings and beliefs of the Catholic Church and the values of *Edmund Rice Education Australia* as espoused in the Charter and through the Touchstones. The Touchstones help set the direction and define goals as, following Blessed Edmund's example, *Edmund Rice Education Australia* seeks to make the Gospel a living reality in its communities. It is expected that the conduct of *Edmund Rice Education Australia Workers* will give evidence to these teachings, beliefs and values.

The Code includes obligations of persons who fulfil the definition of *Worker* and sets out responsibilities which include:

- Interactions with Students, behaviour education of Students and physical contact with Students.
- Interactions between colleagues.
- Expectations regarding the use of Technology.
- Edmund Rice Education Australia's position on Sexual Harassment, Workplace Bullying, Sexual Misconduct, Sexual Offences, Discrimination and Illegal Drugs and alcohol.
- A process for reports and complaints to be made about breaches of the Code.

1.0 Code of Conduct Introduction

1.1 Purpose

The Code outlines the conduct and expectations required by Edmund Rice Education Australia for Workers within the Edmund Rice Education Australia community.

1.2 Applicability

The Code sets out obligations for all Workers within the communities of Edmund Rice Education Australia and its Schools and entities. The Code must be read carefully in conjunction with the definitions contained at the back of the Code.

1.3 Legal Implications

An agreement to uphold and comply with the Code is a requirement of employment, and is specified in applicable employment agreement with *Edmund Rice Education Australia*, its *Schools* or a related entity. This agreement also means that by signing the employment contract or its equivalent Workers have accepted responsibility to familiarise themselves on an ongoing basis with the Code and comply with it.

Edmund Rice Education Australia reserves the right to vary the Code as necessary at its sole discretion, in order to reflect and respond to current legislative and organisational needs. Those changes are effective when communicated. The consequences of breaching the Code are set out in section 5.2. It is therefore imperative that Workers are aware of, and familiar with the Code.

The Code is not intended to be legally binding on Edmund Rice Education Australia and its Schools. To the extent that the Code refers to obligations on Edmund Rice Education Australia and its Schools, those obligations are guidelines only and not contractual terms, conditions or representations on which Workers should or may rely.

1.4 Review

The Code will be reviewed every three (3) years, with interim adjustments as necessary (ie. changes to legislation, changes to other Policies which will have an effect on the Code).

2.0 Responsibilities of Workers

Section 2.0 is not intended to diminish responsibilities which may exist for Workers who have a contractual relationship with Edmund Rice Education Australia or its Schools. The following, non-exhaustive list, includes the responsibilities which Edmund Rice Education Australia expects of its Workers:

3.0 Child Safe Code of Conduct

3.1 Introduction

Edmund Rice Education Australia's vision for ensuring Schools are safe and supportive environments is outlined in the Edmund Rice Education Australia Commitment Statement to Child Safety. All Workers have a responsibility to understand the important and specific role they play individually and collectively to ensure that the wellbeing and safety of all Students is at the forefront of all they do and every decision they make.

This Child Safe Code of Conduct provides a high-level statement of Professional Boundaries, ethical behaviour and acceptable and unacceptable relationships. It will assist Edmund Rice Education Australia to meet its obligations to have such a defined code as required by various States' Child Protection Legislation. More than this, it reinforces Edmund Rice Education Australia's commitment to providing safe and supportive environments where all children and young people entrusted to our care are affirmed in their dignity and worth as a person. Children and young people in the Edmund Rice Education Australia community are empowered to have a voice which includes listening and responding to their views and concerns.

This Child Safe Code of Conduct applies to Workers. To the extent reasonably required to protect Students from Harm, there is an expectation that the Child Safe Code of Conduct will apply to the conduct of Students, parents/guardians and visitors.

3.2 Interactions with Students

Workers must treat all Students with respect. Workers hold a unique position of influence, authority, trust and power in relation to Students. As such, it is their duty to establish and maintain Professional Boundaries with Students at all times.

Workers must:

- abide by Professional Boundaries, acknowledging that interactions with Students by their very nature are open to scrutiny. Workers should avoid placing themselves or a Student in a compromising position and avoid actual and/or perceived breaches of the Code.
- be familiar with, apply and act in accordance with the *School/College*'s Child Protection Program.

Workers must be vigilant and proactive taking all reasonable steps to protect children from Harm (refer to the Child Abuse Definitions in the *School/College*'s Child Protection Program).

3.3 Professional Boundaries

Workers must be conscious that their position places significant obligations on them including a requirement to maintain Professional Boundaries. Interactions with Students can extend beyond the School setting, including outside of School hours, outside of School grounds and by any medium of Technology (including social media).

Workers must ensure that social interactions with Students do not give grounds for allegations against them. Workers must not initiate or develop a relationship with any Student that is or can be perceived or misinterpreted as having a personal rather than a professional element.

Professional Boundaries between a Worker and a Student may be compromised by Workers:

- Treating a Student with favouritism, or perceived favouritism (ie. by the offering or gifts or special treatment for specific Students);
- Attending parties or socialising with Students outside of organised School events (without parent/guardian permission);
- Sharing personal details about their private life with Students; or
- Meeting with Students outside of School hours without permission from the School.

Further to this, Workers must:

- Not engage in open discussions of an adult nature in the presence of, or which may be overheard by, Students.
- Avoid, as far as possible, situations where they are alone with a Student. In such situations Workers must adhere to the prescribed School Policy with specific reference to working alone with a Student.
- Endeavour not to drive a Student in their car unless they have parental permission and do so in accordance with School Policies
- Only engage in paid tutoring or coaching of Students outside of School hours in accordance with School Policies.

Workers must be aware that the Code applies regardless of:

- The location of where an interaction occurs, whether during or outside School grounds or during or outside School hours.
- A Student's age.
- A Student's consent.
- The consent of parents/guardians and families.
- Circumstances in which a Student initiates an interaction or relationship between the Worker and the Student.

3.4 Grooming

Workers must not engage in Grooming or Grooming Behaviours (refer to the definition of Grooming in the *School/College*'s Child Protection Program). Sexual interaction, including Sexual Misconduct and Sexual Offences, between Workers and Students is never appropriate and is always unlawful, whether consensual, non- consensual or condoned by parents/guardians.

Workers should be aware that where a relationship develops with an ex-Student, their employer is entitled to consider whether the Worker's actions suggest/suggested an abuse of their position as a staff member including if Professional Boundaries between the Worker and the Student were infringed. A judgment that abuse of their position has occurred would constitute Serious Misconduct and may result in the Worker's employment being terminated, together with mandated reporting to appropriate child protection agencies.

3.5 Personal Relationships with Students

Where personal relationships with Students such as family relationships and close friendship networks may exist, questions of Conflict of Interest may arise and Professional Boundaries may be tested.

Where such a situation may arise, a Worker is expected to:

- Be appropriately diligent in developing and maintaining Professional Boundaries
- Take steps to ensure any potential Conflict of Interest is avoided
- Comply with the School's Policy to make relevant disclosures to the Child Safety Officer (or equivalent) and/or the Principal.

3.6 Behaviour Education

Student behaviour education practices in Edmund Rice Education Australia Schools aim to facilitate the development and experience of responsible self-discipline amongst Students and to promote the well-being, safety and effective management of the School community.

Workers should use positive and affirming language towards Students, and create open, safe and supportive environments where Students are encouraged to interact, socialise and "have a say". Workers must develop and use effective, consistent and appropriate behaviour education strategies

in day to day interactions with Students. These strategies should include clear, consistent and published methods of dealing with inappropriate behaviours. These strategies should reflect and apply the values of Edmund Rice Education Australia and be developed in accordance with relevant Policies and Disability Standards, where applicable.

Students who display recurring challenging behaviours, particularly unsafe behaviours, should be referred to the appropriate person (consistent with the *School/College*'s Student Management Policy).

Workers should exercise prudent judgement and intervene when Students are engaging in bullying behaviour towards others or acting in a humiliating or vilifying way (consistent with a School's Student Management Policy).

All forms of Corporal Punishment are prohibited. The use of any form of child abuse, corporal punishment or other degrading punishment is explicitly forbidden.

3.7 Physical Contact with Students General

Workers are required to develop and exercise prudent judgment and sensitivity regarding appropriate physical interactions with Students.

Edmund Rice Education Australia expects that when physical contact with a Student is necessary within the teaching/learning experience, Workers must exercise caution to ensure that the contact is appropriate and acceptable for the duty to be performed. Examples of situations where physical contact with a Student may be necessary, beneficial and/or supportive include:

- Assisting Students with special needs, for example to allow a Student to engage with a teaching/learning experience or the curriculum in general in accordance with School Policies and Disability Standards.
- Assessing a Student who is injured or ill. One should advise the Student of what they intend to do and, where possible, seek the Student's consent and have a colleague present.
- Teaching sport, music and other activities where physical handling of a Student is required to demonstrate a particular action or skill.
- Comforting in a pastoral manner an upset Student.
- Guiding a Student in a non-threatening manner.
- Using a gentle tap on a Student's shoulder to gain his/her attention after verbal requests were unsuccessful.
- Restraining a Student when the Student, other Students, Workers or others are being harmed or are in imminent danger of being harmed.
- A congratulatory handshake or pat on the back.
- Edmund Rice Education Australia expects that any physical contact as referred to in the above examples:
 - Is only acceptable if the contact is reasonable for the purpose of the management or care of the Student.
 - Must be appropriate given the age, maturity, health or other characteristics of the Student.
 - Should be consistent with any individual behaviour education plan in place for that Student.

3.8 Physical Contact with Students: Risk and Response

As any physical intervention involves some risk of injury, Workers must weigh this risk against the risks involved in failing to physically intervene when it may be warranted. Intervention may be warranted when a Student, other Students, Workers or others are being harmed or are in imminent danger of being harmed.

Such interventions should be employed as measures of last resort required to ensure safety and protection (ie. physical interventions, including physical restraints, removals or escorts) or to contain and/or control the behaviour of Students in circumstances such as:

- A Student attacking a Worker or third party.
- A Student attacking another Student.
- Students physically fighting.
- A Student causing, or at risk of causing, injury to themselves or others.
- A Student misusing dangerous materials, substances or objects where it is likely that this will cause imminent harm.
- A Student placing themselves (deliberately or inadvertently) in a dangerous situation.
- A Student being attacked by a third party.

All Workers using physical interventions are responsible and accountable for the manner in which they exercise that authority. Workers must report all physical interventions to the Principal or Deputy Principal. Principals would then report the same to the Regional Director.

NB. The same physical contact guidelines apply during off-campus excursions and camps. School Excursion Policies may reference additional guidelines (ie. in the case of dormitory supervision).

3.9 Use of Technology

Workers are expected to adhere to the following guidelines regarding electronic communications with Students (consistent with any School Acceptable Usage and Social Media Policies):

- All use of Technology should be for educational purposes or for the organisation of co-curricular events;
- All email communication between Workers and Students should be via the School email system and reflect the Professional Boundaries between Worker and Student;
- All online contact between Workers and Students should be via School systems and reflect the Professional Boundaries between Workers and Student;
- Workers should ordinarily not give out their personal telephone numbers to Students. In cases where this is necessary, contact by personal telephone numbers must reflect the Professional Boundaries between Worker and Student;
- Workers should not exchange personal social media or instant messenger account details with Students or accept friend/follow requests or engage in any contact via social media or instant messaging;
- Workers should not exchange personal pictures with Students;
- Workers should not take or publish (including online) photos, movies or recordings of a Student without School authority; and
- Any Student personal contact numbers or other personal contact details made available to the School should only be used for School communications.

3.10 Inclusivity Principle

Workers are expected to promote the safety, participation and empowerment of all Students. Particularly, Workers must:

- Promote the cultural safety, participation and empowerment of Aboriginal and Torres Strait Islander Students
- Promote the culture safety, participation and empowerment of Students with culturally and/or linguistically diverse backgrounds
- Promote the safety, participation and empowerment of Students with a disability

- Workers should not express personal views or discriminate against any Student based on culture, race, ethnicity, disability or sexuality.

3.11 Reporting

Workers with concerns about conduct which falls below the standards expected by this Child Safe Code of Conduct might refer to:

- The definition of Harm; and
- The Definitions and Key Risk Indicators within the School's Child Protection Program.

Workers must report concerns about child safety, including actual or perceived breaches of this Child Safe Code of Conduct, to one of the School's Child Safety Officers (or equivalent). This may include any concerns that Grooming, Sexual Misconduct or a Sexual Offence has been committed against a Student or that a Student has been the subject of Harm. Workers must ensure their legal and mandatory reporting obligations are met, consistent with the School's Procedures for Responding to and Reporting Allegations of Child Abuse within the School's Child Protection Program.

Where an allegation of Harm is made, a Worker will ensure as quickly as possible that the Student involved is safe. The police should be called (000) if there are immediate concerns for the Student's safety.

Workers must consciously act to maintain their personal and professional integrity on occasions when alcohol, legal and Illegal Drugs and tobacco may be present.

Workers experiencing difficulties in relation to Illegal Drugs, alcohol or tobacco are encouraged to access the Employee Assistance Program (ACCESS) or the Principal or Deputy Principal for assistance. During employment or engagement, Edmund Rice Education Australia may require a Worker to undergo a drug and alcohol test, to monitor compliance with this Code and work health and safety legislation if Edmund Rice Education Australia or a School suspects, on reasonable grounds, that a Worker is working under the influence of Illegal Drugs or alcohol. Reasonable grounds for testing can be established if a Worker's behaviour, actions or conduct (whether observed by or reported to Edmund Rice Education Australia or the School) suggests that the Worker is under the influence of Illegal Drugs and/or alcohol.

Workers acknowledge that a potential or actual breach of the Code may expose Edmund Rice Education Australia and its Schools to significant reputational damage and public scrutiny as a result of a Worker's conduct (which may include conduct outside of School hours). These factors will be taken into account when considering the scope of any allegations made under this Code, and any disciplinary action that may be taken as a result.
