

Peninsula International School, Australia, Malaysia Campus Setia Alam Malaysia is seeking a qualified candidate for Head of Science for the second semester of the 2019-2020 school year.

Peninsula International teachers are knowledgeable, passionate, and believe in transforming education. As part of a uniquely collaborative and professional teaching community, Peninsula International teachers motivate students to reach their highest potential, while also elevating their own skills through peer collaboration and a culture where learning is of the greatest importance.

Opening: Head of Science July 2019 or sooner

As a VCE Head of Science, you will build upon foundations laid in the Middle grades to give students in Years 10, 11 and 12 a more in-depth understanding of Science and manage a department of three teachers. A full Job Description will be made available to those candidates invited for an interview.

Please send a CV and covering letter outlining why you want to apply for the role at Peninsula International School. Please follow the application process, making sure you address the focus areas for this role, in a covering letter.

Qualifications; A Bachelor's Degree and/or Masters Degree in Science and Qualified teaching status along with the ability to teach at examination level In addition to a minimum three years' experience as a HOD is required.

Preferred: A high level of educational attainment, the successful applicant will demonstrate strong communication skills in teaching ideas, texts, and concepts with precision and confidence. Must be open to new ideas in teaching.

Please send CV and covering letter to kamaladevi.naidu@peninsula.edu.my or visit the schools website: www.peninsula.edu.my

*Only those candidates who are successful will be invited for an initial Skype interview.

We thank you for your time and effort in submitting an application.
