2027 COMPREHENSIVE FEE STRUCTURE

This comprehensive approach ensures transparency and simplifies budgeting for families, eliminating unexpected additional costs throughout the school year.

TECHNOLOGY

At Wyong Christian Community School, we're blessed to work in Christian education, where we can impact students' lives with matters of eternal significance. We help students navigate our ever-changing world, especially in the rapidly evolving area of technology. Technology brings incredible opportunities and benefits, but it also presents challenges and temptations. We are committed to partnering with you to raise children who are both responsive disciples of Christ and responsible users of technology. We want our students to be effective and discerning users, equipped with the self-discipline to navigate the digital world wisely.

School Owned Managed Device Program (Year 7 2027):

Students in Year 7 in 2027 will receive a fully configured and managed laptop, as part of our School Owned Managed Device Program (MDP). This device will be purchased by the school and managed by our IT Team, for use both at school and at home, for three years.

An Annual Technology Levy of $420 will be invoiced to families in addition to their Term 1 school fees for each of the three years from Year 7 to Year 9.

Please note:

- The MDP is compulsory for all Year 7, 2027 students at WCCS.
- Devices are expected to be handed out to families during an Information Evening to be scheduled early Term 1, 2027.
